## Fiscal Estimate Narratives PSC 5/20/2005

LRB Number 05-2357/1	Introduction Number	AB-437	Estimate Type	Original			
Subject							
Granting of easement to public utility for transmission line							

## **Assumptions Used in Arriving at Fiscal Estimate**

This bill would implement a process for negotiation of payments from utilities for transmission line rights-ofway on certain lands owned by governments, or other utilities.

The bill would not have a fiscal effect on the Public Service Commission. It is not clear what the impact of the bill would be on local government because the PSC does not have information that could assist in determining any effects.

## **Long-Range Fiscal Implications**

None for state. Indeterminate for local government.
